March 4, 1996

Mr. Bob Hoover
Book Editor, Pittsburgh Post-Gazette
34 Boulevard of the Allies
Pittsburgh, PA 15222

Dear Mr. Hoover:

Harold Weisberg was kind enough to send me your February 11, 1996 article which discussed his work. I have been to Mr. Weisberg's to do research and I have shared my research with him.

My expertise is in the subject of Senator John Sherman Cooper and his work on the Warren Commission. My research at the University of Kentucky turned up two interesting items. One was the enclosed letter by Senator Cooper in which he explains his disagreement with the "single bullet theory". The second was an unpublished and unknown mental evaluation of Jack Ruby, which showed the depth of his mental illness.

I would like to submit the enclosed book review of Never Again! for publication in your newspaper. This review has not previously been published.

Enclosed is an article of mine, recently published by our local suburban weekly and an article about my donation of Weisberg's books to the University of Kentucky.

I hope you can use this book review. If possible, I would appreciate a copy or tear sheet of the review.

I thought your article was excellent and you have my compliments.

Sincerely,

William L. Neichter

WLN/ea
